## 0-10V Dimmable Driver

---

### Description

---

The Diffusion DL010-Dimmable Driver series is a 0-10 V constant voltage dimmable 24 V DC LED driver suitable for indoor lighting with protection from short circuits, overcurrent, and over-voltage

### Specifications

---

|                   |             |
|-------------------|-------------|
| WATTAGE           | 30W         |
| OUTPUT VOLTAGE    | 24V DC      |
| RATED CURRENT     | 0~1.25A     |
| DIMMABLE          | Yes         |
| DIMMING FUNCTIONS | 0-10V       |
| DIMMING RANGE     | 0-100%      |
| LOAD REGULATION   | 0%          |
| ENVIRONMENT       | Indoor Only |
| IP RATING         | IP 20       |

### Features

---

Protection from short circuits, over current, and over voltage

IP20 design for indoor installation
