

# SLC-2703AL

## Diffusion LED Channel

### Safety Instruction and Warning

WARNING:

#### READ CAREFULLY BEFORE INSTALLING.

Installation should only be performed by a qualified electrician in accordance with NEC and all applicable local building codes.

Risk of fire or electric shock. Fixture installation requires knowledge of luminaire electrical systems. If not qualified, do not attempt installation. Contact a qualified electrician.

Ensure that electrical power is turned OFF before and during installation or maintenance.

Fixtures must be connected to a wiring system that includes an equipment-grounding conductor.

Ensure that the supply voltage matches the rated voltage of the luminaire fixture.

Wear gloves and safety glasses at all times when removing the luminaire from the carton, installing, servicing, or performing maintenance.

### Diagram

### Description

Diffusion Stainless Steel channel for the SLC-027F channel only.

## Diffusion LED Channel

### Installation Types

Surface Mount

**Notes:**

*\*\*Fixture should be built and installed based around the lengths of ribbon and power feed locations\*\**

### Step 1

First, determine the placement of the stainless mounting channel based on your finished fixture length.

Then cut the stainless mounting channel to the required length.

# SLC-2703AL

## Diffusion LED Channel

### Step 2

Install the stainless mounting channel at the determined placement.

### Step 3

Snap the finished fixture into the stainless mounting channel, making sure the power feed is at the appropriate end.
